

# M3P Compliance Made Simple

## A proven solution for a new mandate

SimplicityRx expands the existing Simplicity platform to meet the new mandate for the Centers for Medicaid and Medicare Services (CMS) Medicare Prescription Payment Plan (M3P).

By leveraging tested and reliable technology, SimplicityRx allows Medicare Part D sponsors to easily meet the requirements for making prescription drugs more affordable for their participants.

**SimplicityRx delivers a fully compliant end-to-end solution for M3P.**

- Ledger accounting system to track entire life cycle of participant activity
- A/R reporting and reconciliation
- Easy-to-use enrollment interface and support for participants
- Participant invoicing and collections including bill calculations
- Multiple communication options for participants, including voice, digital, and print
- Reporting dashboards, standardized and custom capabilities
- System integration for all required plan/PBM connectivity

## SimplicityRx — *More than Compliance*

SimplicityRx delivers more than full CMS compliance. We simplify payments across healthcare with our unique set of trusted practices.

### + End-to-end Solution

Personnel, processes, and operations are in place

### + Market-ready and Reliable

SimplicityRx is built from Simplicity, an active solution meeting needs in healthcare payments

### + Minimal Integration Requirements

Workflow designs are built for seamless integrations and limited commitments from IT teams

### + Great Participant Experience

Consumer-focused enrollment, payment, communication, and support options

## SimplicityRx Value

Allows Medicare Part D sponsors to seamlessly meet CMS requirements for M3P with one solution

Protects Star ratings by simplifying complexities and avoiding dissatisfaction

Remains flexible to accommodate part two guidance expected from CMS in early 2024 and exceed January 1, 2025 mandates
